We invite you to a FREE OF CHARGE Seminar / Workshop

FOR PARENTS OF 9-13 YEAR-OLD CHILDREN

**6:15pm Tuesday 14th March 2017 at Newcastle Academy Library,
Ostend Place, Newcastle, Staffs. ST5 2QY
(enter via Ostend Place driveway).**

We are all concerned about internet safety, understanding what our children are doing online. With technology playing an increasingly significant role in everyone's life, and the media constantly bombarding us with stories about child exploitation, parents, carers and teachers are right to be concerned.

This free seminar-style workshop is designed to help parents understand some of the dangers and addresses some of the key issues around safety with technology. You will learn some practical skills to help manage your internet safety in the home and with mobile devices, and will take away a free booklet filled with useful information and guidance.

Numbers are limited, and this is a pre-booking event only suitable for adults (**no children will be allowed**).

If you are interested in attending, please email: events@uetrust.org, or call in to reception at Newcastle Academy to book your place.
